PROFESSIONAL SUMMARY

React Native Developer with experience building cross-platform mobile applications for Android and iOS using JavaScript and TypeScript. Skilled in API integration, Redux state management, and performance optimization. Experienced in developing scalable, high-performance applications with clean UI and smooth user experience. Strong collaborator with designers and backend teams to deliver production-ready mobile solutions.

TECHNICAL SKILLS

- Mobile Development: React Native, Android, iOS
- Programming Languages: JavaScript, TypeScript
- State Management: Redux, Context API
- Backend & APIs: REST API Integration, Firebase, Axios
- Authentication: JWT, OAuth
- Web Technologies: HTML, CSS, React JS
- Tools & Platforms: Git, GitHub, VS Code

PROFESSIONAL EXPERIENCE

React Native Developer – Radoms Digital Pvt. Ltd. | July 2025 – Present

- Developed and maintained cross-platform mobile applications using React Native.
- Collaborated with designers, backend developers, and QA teams in Agile workflow.
- Implemented Redux and Context API for efficient state management.
- Integrated RESTful APIs and third-party libraries for scalable app features.
- Improved application performance and responsiveness through optimization techniques.
- Delivered production-ready applications following clean code and scalable architecture practices

PROJECTS

NewTapri — React Native Mobile Application

- Developed mobile application using React Native, JavaScript, and Redux with modern UI and smooth navigation.
- Integrated REST APIs, Firebase, Axios, and React Navigation for real-time data synchronization.
- Optimized performance and reduced load time through profiling and performance improvements.

Khajanchi — Mobile Application

- Built scalable features using React Native and TypeScript focusing on stability and performance.
- Implemented secure authentication using JWT and OAuth.
- Improved usability through responsive layouts and cross-device compatibility.

AchiDeal — Mobile Application (on working)

- Developed scalable mobile features using React Native and TypeScript.
- Integrated REST APIs for efficient data handling and application performance.
- Enhanced UI/UX with reusable components and responsive design.

CORE COMPETENCIES

- Cross-Platform Mobile App Development
- API Integration & Data Handling
- Performance Optimization
- UI/UX Implementation
- Debugging & Troubleshooting

EDUCATION

Master of Computer Applications (MCA)	2023 – 2025 Kanpur Nagar
Axis Business School (Kanpur Nagar)	
Bachelor of Science (BSc)	2020 – 2023 Abhaidepur Jalaun
Braj Kishor Vishnu Kumar Mahavidyalaya (Jalaun)	

CERTIFICATION

- MERN Stack Developer
